

## **MIDWEST AUTOMOTIVE DESIGNS POSTS LIBRARY OF INSTRUCTIONAL VIDEOS FOR WEEKENDER RV CAMPER VAN**

January 17, 2017

Innovations like a Suburban on-demand tankless water heater, an Espar diesel-powered coach furnace, and a wide array of state-of-the-art connectivity and entertainment systems epitomize the best-in-class amenities onboard every custom luxury van we build.

Now, Midwest Automotive Designs is making a series of how-to videos available to help you get the most from all of the features we pack into each model. Our first release of instructional videos focuses on the Weekender RV Camper Van's operation.

From guidelines on hooking up city and fresh-water connections to operating the Weekender's armless awning, massage chairs and fusion entertainment system, you'll find a library of helpful how-to videos designed to make your ownership experience as exceptional as the vehicles themselves.

Visit our [YouTube channel](#) and view instructional videos from our Weekender series, and let us know if there are any additional videos you'd find helpful as we continue to grow our library.
